

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006

StoLevell Calce FS

Ref. 130000005783/D

Rev. no. 1.4

Revision Date 09.06.2017

Print Date 23.06.2017

SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1 Product identifier

Trade name StoLevell Calce FS

1.2 Relevant identified uses of the substance or mixture and uses advised against

Knife filler/ Surfacer

Uses advised against This information is not available.

1.3 Details of the supplier of the safety data sheet

Sto SE & Co. KGaA
Ehrenbachstr. 1
D - 79780 Stühlingen
Telephone: +49 7744 57-0
Telefax: +49 7744 57 -2178
infoservice@sto.com

E-mail address of person responsible for the SDS European Union Sto SE & Co. KGaA
TIQ Quality Management Department
e.volz@sto.com

1.4 Emergency telephone number European Union Phone: +44 (0)1235 239 670

SECTION 2: HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Serious eye damage, Category 1 H318: Causes serious eye damage.

Skin irritation, Category 2 H315: Causes skin irritation.

Specific target organ toxicity - single exposure, Category 3, Respiratory system H335: May cause respiratory irritation.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006

StoLevell Calce FS

Hazard pictograms

Signal word

Danger

Hazard statements

H315 Causes skin irritation.
H318 Causes serious eye damage.
H335 May cause respiratory irritation.

Precautionary statements

P102 Keep out of reach of children.
Prevention:
P261 Avoid breathing dust.
P271 Use only outdoors or in a well-ventilated area.
P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.
Response:
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P315 Get immediate medical advice/ attention.
P302 + P352 IF ON SKIN: Wash with plenty of soap and water.
P332 + P313 If skin irritation occurs: Get medical advice/ attention.
P362 + P364 Take off contaminated clothing and wash it before reuse.
P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

Hazardous components which must be listed on the label:

portland cement

2.3 Other hazards

Mortar/render has an alkaline reaction with water. Therefore protect your skin and eyes. Wash thoroughly with water in case of skin contact. Immediately consult a doctor in case of contact with eyes!

Risk of infection of the lung after prolonged inhalation of dust particles.

Results of PBT and vPvB assessment

Not applicable

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.2 Mixtures

Chemical nature

Cementitious and calcareous factory-made mortar.

Hazardous components

Chemical name	CAS-No. EC-No. Registration number	Classification (REGULATION (EC) No 1272/2008)	Concentration (% w/w)
portland cement	65997-15-1	Eye Dam.1; H318 STOT SE3; H335	≤ 20

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006

StoLevell Calce FS

	266-043-4	Skin Irrit.2; H315	
calcium hydroxide	1305-62-0 215-137-3 01-2119475151-45-XXXX	Eye Dam.1; H318 STOT SE3; H335 Skin Irrit.2; H315	≥ 3 - < 5
Substances with a workplace exposure limit :			
Quartz (particle of sand < 12 µm less than 1 %)	14808-60-7 238-878-4	WEL substance, Not a dangerous substance according to GHS.	≥ 30 - < 50

For explanation of abbreviations see section 16.

SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

Inhalation	Move to fresh air. If symptoms persist, call a physician.
Skin contact	Take off contaminated clothing and shoes immediately. Wash off immediately with soap and plenty of water. If symptoms persist, call a physician. Wash clothing before reuse.
Eye contact	In case of eye contact, remove contact lens and rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If possible, use isotonic eye rinse solution (e.g. 0,9% NaCl). Do not rub affected area. Call a physician immediately.
Ingestion	Rinse mouth. If conscious, drink plenty of water. Do NOT induce vomiting. Obtain medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms	No information available.
Treatment	Treat symptomatically. No information available.

SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media	The product is not flammable. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing	Not applicable

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006

StoLevell Calce FS

media

5.2 Special hazards arising from the substance or mixture

In set state, the product itself is classified as non-combustible in accordance with EN 13501-1.

The product is neither explosive nor combustible and is also not oxidising in relation to other materials.

5.3 Advice for firefighters

No special measures required.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Avoid dust formation.

Use respiratory protective device against the effects of dust.

6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

If the product contaminates rivers and lakes or drains inform respective authorities.

6.3 Methods and material for containment and cleaning up

Use mechanical handling equipment.

Moisten and remove.

Avoid whirling up dust - vacuum-clean rooms instead of sweeping.

Do not use compressed air for cleaning purposes.

Dispose of contaminated material as waste according to item 13.

Clean contaminated surface thoroughly.

6.4 Reference to other sections

Refer to protective measures listed in sections 7 and 8.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling

Advice on safe handling

Avoid dust formation.

When handling sacked goods and using open mixing containers, first pour in water, then carefully allow the dry mortar to run in. Keep fall height low. Start up mixer slowly.

Do not compress empty sacks, e.g. in a larger sack.

Large loads of over 25 kg should be moved not by hand but with the aid of mechanical equipment only. Depending on the employee's age, gender and constitution and the frequency with which loads are lifted and carried, they may also induce a high level of strain at lower weights.

Do not kneel in fresh product while working.

Provide sufficient air exchange and/or exhaust in work rooms.

Do not re-use empty containers.

Hygiene measures

When using do not eat, drink or smoke.

Wash hands before breaks and at the end of workday.

Avoid contact with the skin and the eyes.

Remove and wash contaminated clothing before re-use.

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006

StoLevell Calce FS

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers	Store in original container. Keep in a dry place.
Advice on protection against fire and explosion	When exposed to high temperatures may produce hazardous decomposition products such as carbon monoxide and dioxide, fumes.
Further information on storage conditions	Protect from humidity and water. Manufacturer's notes on storage conditions and product life must be observed.
Advice on common storage	No materials to be especially mentioned.

7.3 Specific end use(s) For further information, see also Technical Data Sheet for the product.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

Quartz (particle of sand < 12 µm less than 1 %)	14808-60-7
Additional advice:	Longer and / or strong inhalation of alveolae penetrating fine quartz dust can lead to pneumoconiosis, also know as silicosis. The effect of quartz dust (including cristobalite and tridymite) is a long-term effect and largely depends on the dose of dust, which is determined by the average dust concentration over a long period of time (respirable fraction).
calcium hydroxide	1305-62-0
91/322/EEC	Limit Value - eight hours 5 mg/m³
Additional advice:	Existing scientific data on health effects appear to be particularly limited Indicative

The lists that were valid during the creation were used as basis.

8.2 Exposure controls

Appropriate engineering controls

To avoid dust formation, closed systems (e.g. silo with feed system), local extractors or other technical control devices should be used, e.g. plastering machines or continuous mixers with special auxiliary equipment for collecting dust.

Washing facilities / water for rinsing eyes and skin should be available.
Maintain air concentrations below occupational exposure standards.

Individual protection measures, such as personal protective equipment

a) Eye/face protection Safety glasses with side-shields conforming to EN166

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006

StoLevell Calce FS

b) Skin protection Hand protection

Nitrile coated cotton gloves
Break through time: 480 min
Minimum thickness: 0,8 mm
Protective gloves complying with EN 388.
e.g. KCL 102 Sahara® Top (Kächele-Cama-Latex GmbH, Hotline:
0049(0)6659-87-300, kcl-uk@kcl.de), or equivalent.
Gloves to afford protection from chemicals (cat. III) are not required.

Soaked gloves should be changed. Keep replacement gloves available.

After washing hands, replenish lost skin oil by means of oily skin ointment.
Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact).
The choice of an appropriate glove does not only depend on its material but also on other quality features and is different from one producer to the other.

Body Protection

Long sleeved clothing

c) Respiratory protection

Avoid inhalation of particles.
Mixing and transferring dry mortars in open systems:

Compliance with the maximum permissible levels at the workplace is to be ensured by effective dust control measures, e.g. local extraction devices. Where this is not possible, particle-filtering half masks of type FFP2 (tested in accordance with EN 149) are to be used.

Manual working of ready-to-use mortar: No respiratory protection necessary.

Machining of mortar: No respiratory protection necessary.

Environmental exposure controls

General advice

The product should not be allowed to enter drains, water courses or the soil.
If the product contaminates rivers and lakes or drains inform respective authorities.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Appearance	powder
Colour	white
Odour	odourless
Odour Threshold	No data available
pH	> 11,5, 20 °C, (aqueous suspension)

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006

StoLevell Calce FS

Melting point/freezing point	Not applicable
Initial boiling point and boiling range	not applicable
Flash point	not applicable
Evaporation rate	not applicable
Flammability (solid, gas)	The product is not flammable.
Lower explosion limit	not applicable
Upper explosion limit	not applicable
Vapour pressure	No data available
Vapour density	not applicable
Density	not applicable
Solubility(ies)(Water)	slightly soluble
Partition coefficient: n-octanol/water	not determined
Auto-ignition temperature	not auto-flammable
Decomposition temperature	No data available
Viscosity, dynamic	not applicable
Explosive properties	Not explosive
Oxidizing properties	Not applicable

9.2 Other information

Bulk density	ca. 730 kg/m ³ , 20 °C
Flow time	not applicable

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity

No dangerous reaction known under conditions of normal use.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

Hazardous reactions This information is not available.

10.4 Conditions to avoid

Conditions to avoid Avoid exposure to water and moisture during storage (moisture leads to an alkaline reaction which causes the mixture to harden).

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006

StoLevell Calce FS

10.5 Incompatible materials

Materials to avoid	Reacts exothermically with acids; the moist product is alkaline and reacts with acids, ammonium salts and base metals, e.g. aluminium, zinc, brass. The reaction with base metals produces hydrogen.
--------------------	--

10.6 Hazardous decomposition products

Hazardous decomposition products	No decomposition if stored and applied as directed.
Decomposition temperature	No data available

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Product

Acute oral toxicity	Based on available data, the classification criteria are not met.
Acute inhalation toxicity	Based on available data, the classification criteria are not met.
Acute dermal toxicity	Based on available data, the classification criteria are not met.
Skin corrosion/irritation	Causes skin irritation.
Serious eye damage/eye irritation	Causes serious eye damage.
Respiratory or skin sensitisation	Based on available data, the classification criteria are not met.
Germ cell mutagenicity	
Genotoxicity in vitro	Based on available data, the classification criteria are not met.
Carcinogenicity	Based on available data, the classification criteria are not met.
Reproductive toxicity	
Effects on fertility	Based on available data, the classification criteria are not met.
Developmental Toxicity	Based on available data, the classification criteria are not met.

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006

StoLevell Calce FS

STOT - single exposure	May cause respiratory irritation.
STOT - repeated exposure	Based on available data, the classification criteria are not met.
Aspiration hazard	Based on available data, the classification criteria are not met.
Human experience	Cement may exacerbate existing illnesses of the skin, eyes and respiratory passages, e.g. in case of pulmonary emphysema or asthma.
Further information	The product itself has not been tested. The mixture is classified in accordance with Annex I to EC Directive 1272/2008. (See sections 2 and 3 for details).

Components:
portland cement :

Skin corrosion/irritation	Causes skin irritation.
Serious eye damage/eye irritation	Causes serious eye damage.
STOT - single exposure	Exposure routes: Inhalation May cause respiratory irritation.

calcium hydroxide :

Skin corrosion/irritation	Species: Rabbit Causes skin irritation.
Serious eye damage/eye irritation	Species: Rabbit Causes serious eye damage.
STOT - single exposure	Exposure routes: Inhalation May cause respiratory irritation.

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006

StoLevell Calce FS

<p>Contaminated packaging</p>	<p>Hardened product residues may be disposed of as industrial waste or building rubble under waste codes 17 01 01 or 10 13 14. Unhardened product residues should be disposed of under the recommended waste code number.</p>
<p>Waste key for the unused product</p>	<p>Packaging that is not properly emptied must be disposed of as the unused product. Empty packaging should be recycled through disposal systems.</p> <p>17 09 03*: other construction and demolition waste (including mixed waste) containing hazardous substances</p> <p>: (*) hazardous waste in terms of the European directive 91/689/EEC</p>

SECTION 14: TRANSPORT INFORMATION

14.1 UN number

Not regulated as a dangerous good

14.2 UN proper shipping name

Not regulated as a dangerous good

14.3 Transport hazard class(es)

Not regulated as a dangerous good

14.4 Packing group

Not regulated as a dangerous good

14.5 Environmental hazards

Not regulated as a dangerous good

14.6 Special precautions for user

Remarks This information is not available.

14.7 Transport in bulk according to Annex II of Marpol and the IBC Code

Remarks Not applicable

SECTION 15: REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Directive 2004/42/EC

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006

StoLevell Calce FS

does not fall under Directive 2004/42/EC

Regulation (EC) No 649/2012 of : Not applicable
the European Parliament and
the Council concerning the
export and import of dangerous
chemicals

Other regulations Comply with the statutory regulations on health and safety at work.

15.2 Chemical safety assessment

This information is not available.

SECTION 16: OTHER INFORMATION

Changes from the previous version are indicated by markings in the left-hand margin. The information in this Safety Data Sheet corresponds to our present state of knowledge and conforms to both national and EU legislation. The user's working conditions are, however, beyond our knowledge and control. The user is responsible for complying with all necessary legal requirements. The information in this Safety Data Sheet describes the safety requirements of our product and does not constitute any assurance of product properties.
